

# Contents

## Editorial Corner

- 283 **Trends in Lignocellulosic Biorefinery for Production of Value-added Biochemicals**  
*Malinee Sriariyanun and Kanyarat Kitsubthawee*

## Review Articles

- 285 **A Comprehensive Review on Effects of Nanoparticles-antioxidant Additives-biodiesel Blends on Performance and Emissions of Diesel Engine**  
*S. Naresh Kumar Reddy and M. Marouf Wani*
- 299 **Recent Situation and Progress in Biorefining Process of Lignocellulosic Biomass: Toward Green Economy**  
*Yu-Shen Cheng, Parita Mutrakulcharoen, Santi Chuetor, Kraipat Cheenkachorn, Prapakorn Tantayotai, Elizabeth Jayex Panakkal and Malinee Sriariyanun*

## Research Articles

- 312 **An Integrated Potential Assessment Criteria and TOPSIS Based Decision Support System for Road Freight Transportation Routing**  
*Warapoj Meethom and Nitidetch Kooathongsumrit*
- 327 **Input-output Linearizing Control of Strong Acid-base Neutralization Process with Fluctuation in Feed pH**  
*Thana Srihawan and Chanin Panjapornpon*
- 336 **Stress Intensity Factor  $K_I$  and Crack-hard Inclusion Interaction Study of a Single Edge Cracked Plate by Adaptive Remeshing and Photoelasticity**  
*Wiroj Limtrakarn*
- 346 **Palletizing Robot Application in the Corrugated Box Industry**  
*Attapol Malaikaew and Kitipong Jaojaruek*
- 354 **Simulation of Die-swell Flow for Wet Powder Mass Extrusion in Pharmaceutical Process**  
*Vimolrat Ngamaramvaranggul and Nawalax Thongjub*
- 362 **Piper Trilinear and Gibbs Description of Groundwater Chemistry in Port Harcourt, Nigeria**  
*Francis James Ogbozige and Michael Akong Toko*
- 370 **Design of Web Application Program for Reducing Processing Time of Raw Material Incoming in an Appliance Industry**  
*Athakorn Kengpol, Sopida Tuamtee, Tattima Chanmanee and Kalle Elfvengren*
- 377 **P<sup>2</sup>CTS-3D IC: An Efficient Placement Aware Partitioning and Clock Tree Synthesis in 3D-integrated Circuits**  
*Radeep Krishna Radhakrishnan Nair, Sivakumar Pothiraj and Rajini Nagarajan*

# Applied Science and Engineering Progress

**Paper Citation is as Followed:** Applied Science and Engineering Progress  
**ISSN: 2672-9156**

#### **Schedule**

no. 1 January–March  
no. 3 July–September

no. 2 April–June  
no. 4 October–December

#### **Editorial Policy**

Paper, comprising review and report of original scientific research, will be judged for publication on the basis of evaluation by independent reviewers. Such reports and articles include those containing substantial supported theories, innovative work, substantial experimental results, useful and constructive discussion, and review articles standardized to regional or international acceptance. Each volume will comprise four issues. In addition, special issue containing the proceedings of conferences may be produced. These will be designated as supplements to the appropriate volume and number. An electronic journal is also provided on the website (<http://www.asep.kmutnb.ac.th>). The editors reserve the right to require revision of the submitted manuscript as a condition for final acceptance.

The university and the editorial board claim no responsibility for the contents or views expressed by the authors of individual articles. Copying allowed freely provided acknowledgement is made thereof. All articles submitted for publication will be assessed by a group of distinguished reviewers.

#### **Focus and Scope**

**Applied Science and Engineering Progress** (ISSN: 2672-9156, E-ISSN: 2673-0421) is an international, double-blind peer-reviewed by at least two independent reviewers, open access scientific journal, free of charge, published by King Mongkut's University of Technology North Bangkok (KMUTNB) since 2008. Applied Science and Engineering Progress published original research articles, reviews, and editorial corner in areas of applied science and engineering. The journal also publishes high quality and peer-reviewed papers presented at conference hosted/co-hosted by KMUTNB to expand the research connection between scientists and engineers. Applied Science and Engineering Progress also aims to introduce research progress of applied science and achievements of engineering development to the world community by demonstrating the significance of research investigations and demonstrations. Accepted manuscript to Applied Science and Engineering Progress will be published every quarter in PDF formats (March, June, September, and December).

Applied Science and Engineering Progress consists of two major sections in Applied Science and Engineering field:

**Applied Science** - This section contains topics in the multidisciplinary domain of applied science and technology on solving technical problems and developing the application of academic research. The focus of this section target to disseminate the progress of the analysis of problem, finding solution and synthesis of knowledge in the fields such as bioprocess technology, chemistry, information technology, and other topics related to applied science.

**Engineering** - This section contains topics in the combination of engineering, invention and innovation and focuses on solving technical problem. The targets of this section includes research works in applications of engineering and technology such as electrical and electronics, industrial production, mechanical engineering, and other topics related to engineering.
